Detect & Deter

Thursday 18th September 2008

Protecting your perimeter, grounds and assets against a host of possible attacks: ranging from vandalism, arson, graffiti and criminal damage to the constant terrorist threats that are becoming more and more prevalent.

Along side monitoring, protecting and providing evidence against external problems, correctly specified equipment can also assist with tangible evidence against ever increasing 'trip and slip' law suits.

Technological developments in the Public Safety and Security Sector have been vast in the past 4-5 years with leaps forward in image recording, network (IP) based solutions and mega pixel technology.

Bringing together, at one venue, the latest state of the art technologies; Here is a selection of the exciting solutions that will be on display:-

- Ultra high resolution panoramic surveillance PTZ camera replacement
- Large programmable video display monitors
- Ruggedized DVRs for mobile applications
- Long range laser assisted camera (up to 3km)
- Perimeter protection radar detection system (early warning all weather day/night)
- IP analogue and mega pixel recording solutions
- Armoured PTZ cameras
- Intelligent video analytics (detect parked vehicles, left baggage and automatically track intruders)
- The latest thermal, infrared and white light equipment
- Advanced noise reduction cameras for low light conditions

Seminar Speakers

Thursday 18th September 2008

We aim to make you aware of the latest equipment and provide you with a sound understanding of how it can benefit you and your business.

Short presentations will given by end-users and exhibitors to discuss potential areas of risk and the solutions available.

Confirmed exhibitors so far include*:

- Navtech Radar
- Envisage Technology
- Stryker Communications
- CBC (Europe)
- Samsung Techwin
- PersideS
- BARCO
- DVS
- ISS
- Forward Vision
- Visiontelligence
- ASDC
- Raytec
- Senstar Stellar

*Although we will endeavour to honour the speakers outlined, details may change in the event of individuals becoming unavailable.

We invite and encourage delegates to share their time with the exhibitors and take advantage of opportunities to network with other delegates and to learn from each other.
