

**MEYERTECH**<sup>®</sup>

# Mission Statement

# Overview

“To improve the quality of life of each and every Meyertech stakeholder”.

By stakeholders we mean:

- By providing a creative working environment for our staff who everyday strive to improve Meyertech products and service performance through vision, innovation, harnessing technology, communication, training and most of all their dedication.
- Through establishment of close working relationships with our suppliers who provide us with core materials and services to enable Meyertech to realise its corporate objectives.
- By embracing feedback from our valued customers, who invest in Meyertech system solutions, and depend on Meyertech services to realise their own objectives.
- By understanding threats to society, whose populace deserve a secure world in which to live and prosper.
- By conducting our business in an accountable manner which is transparent to authorities.
- By respecting the environment, without which no company could function. Meyertech is conscious of the importance of the environment it operates in and the impact its products and services have on that environment. Meyertech makes every effort to balance its corporate objectives through the implementation of a sustainable business strategy to meet its environmental responsibilities”.

Our mantra is “Security with Vision”.
