# **AUDIT TRAIL SOFTWARE & DATABASE**

FUSION-Audit is an essential control room management tool used to automatically record operator and system activity across the security network. With its powerful search tools you can quickly filter through the collected data and generate tabular or graphical reports to review your systems performance. Typically Audit monitors events such as: operator shift times, cameras selections, VCR / DVR operation and alarms, making it very useful for highlighting any issues with particular equipment and operational tasks.

# IMPROVE SYSTEM PERFORMANCE

***"The Fusion package has made it much easier to have a full audit trail of all incidents and produced evidence."***

**Julia Stack**

Community Safety & CCTV Manager, Harrogate Borough Council

# KEY FEATURES

## - USEAGE STATISTICS

Audit enables control room managers to record, store and filter through millions of operator and system activity reports. Ideal for monitoring the performance of your system.

## - GRAPH PRODUCTION

Enables managers to produce detailed graphs and reports in a single click from the filtered data.

## - DATA MANAGEMENT

Enables the stored data to be managed automatically using scheduled tasks including data removal and data backup.

# KEY FEATURES

## - SECURITY LOG-ON

Forces operators to log-on to Audit to use it's functions and, with each operator having specific allocated rights, control to various parts of the system is managed.

## - AUDIT TRAILS

In the event of an incident, Audit enables managers to produce a detailed trail of events per operator, workstation or keyboard.

## - DATA FILTERING

Using its comprehensive built-in search facilities, managers can easily filter, group and export recorded data.

# SPECIFICATION

**OPERATING SYSTEM:** Windows 7 and above.

**NETWORK:** LAN based system.

**DISPLAY:** 1024 x 786 minimum.

**INTEGRATION:** Via network with FUSION & ZoneVu.

**DATABASE:** Microsoft supported Access database.

**DATA INPUT:** Automatic entry via FUSION & ZoneVu.

**DATA OUTPUT:** Tabular & Graphical.

**DATA EXPORT:** Excel compatible CSV file.

**MAX DATA STORAGE:** 2GB.
